## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered. The U.S. and foreign application mentioned in the description have been cited by the examiner in the attached form 892. However, a copy of the publication of page 1 is request: pages 593-599 of the book "Water supply, canalization, gas supply of buildings" (written by BaUai and Marten, published by Mtszaki K6nyvkiad6, Budapest, 1977).

### ***Claim Objections***

2. Claim 30 is objected to because of the following: the use of "there is" at the beginning of lines 7 and 8 is verbose and should be removed from the claim.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 30-41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are indefinite because of the following reasons:

- The following terms lack antecedent basis: “the tank” (claim 30, line 3; because of the use of “one or more tanks”, the antecedent for “the tank” is unclear; did applicant intend to claim “each tank?”); “the greywater tube”, “the greywater valve”, “the primary greywater pipe” and “the secondary greywater pipe” (claim 35); and “the outlet” (claim 36).
- Claim 30 uses the transitional phrase “consisting of” between the preamble and body of the claim excluding any element not specified in the claim. Since it is clear from MPEP 2111.03 that “a claim which depends from a claim which “consists of” the recited elements or steps **cannot** add an element or step”, dependent claims 31-41 which add additional elements are considered to be indefinite.
- Since the independent claim already includes one or more tanks and a washing machine, it is unclear if the one or more tanks and a washing machine in the preambles of each of claims 39-41 are additional elements beyond that of the independent claim or are verbose language. For examination purposes the former is presumed.

#### *Allowable Subject Matter*

5. Claims 30-41 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. The following is a statement of reasons for the indication of allowable subject matter: The closest cited art—DE 3932022 and GB2344132—fail to anticipate or render obvious, alone or in any proper combination, a greywater recycling system of claim 30 including only the elements listed in the claimed arrangement (e.g. both references include additional control elements). Claims 31-41 are listed here since they depend from claim 30 but are indefinite for reasons listed above.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

7. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
